

To Miss O' Connell, I am writing with sincere interest in your position as an tropical forest field technician. technician. I am a recent graduate with little field experience under my belt and am looking for somewhere strong to commence my science carrier. I want to inform you that I am a strong worker and early riser. I am detail oriented and a good listener. My notebook goes with me everywhere I go when at work because I believe in good note taking. I have some experience in the forestry field, and I find it highly appealing. Please review my resume, I believe that you may find it has a good degree of variation. I hope to hear from you. I am available immediately. Thank you.
